

Literature Review of Weapon Target Assignment problem and a Branch-Bound-Cut algorithm on it

Guanda Li joint work with Liang Chen and Yu-hong Dai

Institute of Computational Mathematics and Scientific/Engineering Computing,
Academy of Mathematics and Systems Science,
Chinese Academy of Sciences

December 20, 2022

Contents

- 1 Background
- 2 Literature Review
 - Formulations
 - Algorithms
 - the Latest Development
- 3 useful algorithms
 - Columnn Generation Algorithm
 - Outer Approximation Algorithm
 - Branch-bound-cut Algorithm
- 4 computational result of branch-bound-cut algorithm
- 5 Future Research Plan
- 6 Acknowledgement and Reference

Background

derivation

history

basic formulation

Literature Review
